A sequence of shapes: circle, square, triangle, circle, square, __?__

Answer: Triangle

Tips:

- Look for repeating cycles or sequences
- Observe changes in shape, color, size, or orientation

2. Number Series Questions

Candidates are presented with a series of numbers following a particular rule. The task is to determine the next number or the rule governing the sequence.

Example:

2, 4, 8, 16, __?__

Answer: 32 (each number is multiplied by 2)

Tips:

- Check for common differences or ratios
- Look for patterns involving addition, subtraction, multiplication, or division

3. Diagrammatic or Logical Rule Questions

These involve interpreting diagrams or shapes to deduce the underlying rule or relationship.

Example:

Given a set of diagrams showing shapes with different colors and sizes, select the one that completes the pattern.

Tips:

- Focus on the relationship between elements
- Consider symmetry, orientation, or color changes

This methodical process reduces guesswork and improves accuracy.

Common Patterns and Their Solutions in 2014

Here are some typical patterns and how their solutions were approached in 2014:

- Rotation Patterns: Shapes rotating 90°, 180°, or 270° with each step.

Answer strategy: Note the degree of rotation per step and apply it to predict the next shape.

- Color Alternation: Colors switching between two or more options, e.g., red to blue to red.

Answer strategy: Identify the sequence of color changes and predict the next color.

- Size Progression: Shapes increasing or decreasing in size systematically.

Answer strategy: Observe the size change pattern and extrapolate.

- Shape Transformation: Shapes morphing from one form to another, such as squares turning

into circles.

Answer strategy: Recognize the transformation rule and apply it to answer choices.

- Combined Attributes: Multiple features changing simultaneously, such as shape rotation combined with color change.

Answer strategy: Break down the pattern into components and analyze each separately before combining insights.
